About Me

Hello! I'm a UI/UX designer with 2+ years of experience and 1+ year background in graphic design.

My latest project involved BIC, a social networking platform with integrated crypto features. I've worked with a team of 50 members, collaborating closely with PMs and POs to create user-centric designs. I'm passionate about crafting visually engaging and functional interfaces that enhance user experiences and eager to contribute to innovative projects.
